On-Site Training: Bring This Workshop To Your Facility

This workshop along with other financial workshops for non-financial professionals can be presented at your facility for a per person cost far less than the normal cost of attending a public seminar. By having a training program on site, you participate in identifying the specific training requirements, through a skill needs assessment survey. The workshop is tailored to your needs by having your principles, practices, forms, and reports included in the training program.

Results That My Training Workshops Aim to Achieve:

- Better understanding and analysis of financial and statistical reports
- Increased accuracy in planning and managing budgets
- Accurate analysis and explanation of budget variances
- Confidence in speaking financial and budget terminology
- More informed bottom line decision making

What Workshop Fee Includes:

- Training conducted by an experienced trainer with 18 years as a healthcare CFO and 24 years as a professional training consultant.
- Custom designed workbook includes glossary, checklist, forms, worksheets, exercises, and illustrations.
- CEU's and certificates of completion.
- Permission to video/audio tape the program for client attendees.
- Specific skill needs assessment tailored to the topic selected by client.
- Evaluation summary of workshop and return of evaluations with assessment to client.
- Preparation of workshop announcement and registration form.
- Permission to use budget and report forms and worksheets from workbook.
- Computer software of reports, forms, and worksheets included in the workbook.
